

Essex Structural Steel Co., Inc.

We have been manufacturing pre-engineered building since 1972 to meet the needs of the rugged Northeast winters.

Essex buildings are designed for easy erection

Essex buildings meet or exceed local and state codes

Essex buildings are built in the USA by American workers

Essex works with local and general contractors

Essex buildings are energy efficient

Essex offers technical assistance

Essex uses stamped blue prints for ME, NH, VT, MA, CT, RI, NY, OH, PA, NJ, WV, VI, MD, DE and NC

Essex uses annually certified welders

Naylor & Breen has a 25-year relationship with Peter Flewelling of Essex Steel.

Naylor & Breen has erected several metal buildings for clients for a variety of purposes, from fitness facilities to auto-reconditioning buildings to high-grade industrial storage and manufacturing facilities.
