

NAYLOR & BREEN BUILDERS, INC.

Bristol Animal Clinic
Bristol, Vermont

Naylor & Breen was not the construction manager on this project, however, our cabinet shop, Hawk Hill Cabinetry & Custom Woodwork fabricated all of the cabinetry, waiting room benches, reception desk and retail shelving for the entire project.

Project: Bristol Animal Clinic
Bristol, Vermont
Owner: Bristol Animal Clinic
Architect: Brad Rabinowitz
Brad Rabinowitz Architect

All Cabinetry crafted and
installed by Hawk Hill Cabinetry
Completed August 2011

As you can see from the photos, the cabinetry is a white melamine construction with 3/4" melamine boxes, thermafoil doors and plastic laminate tops (which HH also constructed). The highly durable material stands up to lots of use and cleaning. The reception desk consisted of plastic laminate tops with a rough pine exterior. The waiting room benches have storage under the seating for retail products. The shelving for the retail pet supplies is made of 3/4" solid clear Maple plywood. Hawk Hill also constructed the exam room cabinetry and bathroom vanities. For more photos visit www.hawkhillvt.com.
