Rutland Regional Medical Center
Mary Nemeth
(802) 747-1600

Architect: In-house

Project Manager:
Tanner Romano
Superintendent:
John Crossman
Completion Date: April 2012

The 6 Commons Street—Rutland Regional Medical Center project was undertaken to update and renovate an existing hospital facility. We worked closely with the Hospital to renovate the facility on a schedule to ensure a minimum of patient and staff inconvenience, including working around equipment remaining in the facility. Now its wound ostomy and continence clinic, the structure was opened up with interior renovations including wall relocation, new flooring and painting. A new customer service counter and window were added to the welcome area and a porch and stairs added to the back of the facility.

Project: Fostering Wellness
Chiropractic Offices
Rutland and Brandon, Vermont

Owner: Dr. Charles Foster
Brandon and Rutland, Vermont
(802) 247-6464

Architect: In-house

Project Manager:
Tanner Romano
Superintendent:
John Crossman
Completed Date: In progress

Naylor & Breen Builders has worked with Dr. Foster to renovate two of his office complexes in Rutland and Brandon, Vermont. These renovation and addition projects have included interior work such as the application of insulation, interior framing, lighting and finishes including carpet, paint, VCT, birch doors and trimwork. Exterior work included siding and an 8'x14' addition with a deck and ramp access was added to the Brandon office to facilitate handicapped access. Custom cabinetry and counters by Hawk Hill Cabinetry & Millwork, a division of Naylor & Breen, was also installed in the facility.
