

# NAYLOR & BREEN BUILDERS, INC.

Private Residence  
Salisbury, Vermont

This project has a unique story. It was built on the former Camp Brebeuf property on Lake Dunmore in Salisbury and was purchased by an ex-camper. Now the house sits on the site of the old basketball court overlooking the lake. Naylor & Breen worked closely

with the Owner and Designer on this design-build process as it is perched on an extremely difficult site.

It has a full basement with special considerations taken for energy-efficient heating and electrical systems. It includes a high level of interior finishes with the trim, mantel and custom cabinetry milled by Hawk Hill Cabinetry & Custom Woodwork. Naylor & Breen performed all divisions of labor including the site work, concrete, framing and finishes
