

NAYLOR & BREEN BUILDERS, INC.

Private Residence
Salisbury, Vermont

This project consisted of renovations to a former seasonal lake cottage. Additions include a large enclosed porch with fireplace, sitting and dining areas that can be accessed from the living room or the deck. A double-sided fieldstone fireplace and extensive decking on lake side to compliment the lake living views. All of the cabinetry was milled by Naylor & Breen's Hawk Hill Cabinetry & Custom Woodwork as well as some custom built-in pieces.

Bottom Left:

This unique built-in "island" serves as combination bureau, bookshelves, and headboard on one side and a king size bed on the other. Designed by Peter Morris Architect and constructed by Hawk Hill Cabinetry, it is the only furnishing in this very small, but beautiful and functional master bedroom.
